Revocation of Class E Airspace Area; Merced, Castle Air Force Base (AFB), CA, and Amendment of Class E Airspace Areas; Merced Municipal/MacReady Field, CA

AGENCY: Federal Aviation Administration [FAA], DOT.

ACTION: Final rule; change in effective date.

SUMMARY: This corrective action changes the effective date of the revocation of Class E airspace area at Merced, Castle AFB, CA, and amendment of Class E airspace area at Merced Municipal/MacReady Field, CA. The recent closure of Castle AFB, CA, has made this change necessary.

EFFECTIVE DATE: The effective date of 0901 UTC, November 9, 1995, is changed to 0901 UTC September 5, 1995.

FOR FURTHER INFORMATION CONTACT: Scott Speer, System Management Specialist, System Management Branch, AWP-530, Air Traffic Division, Western-Pacific Region, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261, telephone (310) 725-6533.

SUPPLEMENTARY INFORMATION:

History

Airspace Docket No. 95-AWP-12, published on July 18, 1995 (60 FR 36637), modified the Class E airspace areas at Merced, Castle AFB, CA, and Merced Municipal/MacReady Field, CA.

This action was originally scheduled to become effective on November 9, 1995; however, the early closure of Castle AFB, CA, has required the effective date of this action to be changed to September 5, 1995.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operational current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Change in Effective Date

The effective date on Airspace Docket No. 95-AWP-12 is hereby changed from November 9, 1995, to September 5, 1995.

[Airspace Docket No. 95-AGL-6]

Modification of Class E Airspace; Mount Vernon, IL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies the Class E2 airspace near Mount Vernon-Outland Airport, Mount Vernon, IL, by changing the airspace area's effective hours from part-time to full-time. The intended effect of this action is to enhance safety for all potential users of this airspace by providing segregation of aircraft using instrument approach procedures in

instrument conditions from other aircraft operating in visual weather conditions. An Automated Weather Observation System (AWOS) provides 24-hour weather reporting capability for the airport which makes it possible to designate a full-time Class E2 airspace area. The appropriate publications will be modified to provide the aviation public with updated information.

EFFECTIVE DATE: 0901 UTC, November 9, 1995.

FOR FURTHER INFORMATION CONTACT:

Angeline Perri, Air Traffic Division, System Management Branch, AGL-530, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (708) 294-7571.

SUPPLEMENTARY INFORMATION:

History

On June 9, 1995, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR Part 71) to modify the Class E2 airspace near Mount Vernon, IL (60 FR 30478).

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class E airspace areas designated as a surface area for an airport are published in paragraph 6002 of FAA Order 7400.9B dated July 18, 1994, and effective September 16, 1994, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) modifies the Class E airspace area near Mount Vernon, IL, by changing the airspace area's effective hours from part-time to full-time. The intended effect of this action is to enhance safety for all potential users of this airspace by providing segregation of aircraft using instrument approach procedures in instrument conditions from other aircraft operating in visual weather conditions. An AWOS provides 24-hour weather reporting capability for the airport which makes it possible to designate a full-time Class E2 airspace area. The appropriate publications will be modified to provide the aviation public with updated information.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action”

under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
